EDITORS AND EDITORIAL ADVISERS

Editor
JOHN K. GILBERT
University of Reading, UK

Regional Editors
DAVID F. TREAGUST
Curtin University of Technology, Australia

KATHLEEN FISHER
San Diego State University

JAMES WANDERSEE
Louisiana State University

Assistant Editor
KATE JOHNSTON
University of Liverpool, UK

Consultant Editor
RICHARD KEMPA
University of Keele, UK

Authors in Australasia and the Pacific Rim should send manuscripts to David F. Treagust, Science and Mathematics Education Centre, Curtin University of Technology, GPO Box U1987, Perth, Western Australia 6845, Australia

Authors in North America should send manuscripts to Kathleen Fisher, Centre for Mathematics and Science Education, 6475 Alvarado Road Suite 206, San Diego State University, San Diego, CA 92120, USA; or James Wandersee, Department of Curriculum and Instruction, Room 223 Peabody, Louisiana State University, Baton Rouge, Louisiana 70803, USA.

Manuscripts from elsewhere, and general editorial correspondence, should be sent to:

Professor John K. Gilbert,
School of Education,
University of Reading,
Bulmershe Court,
Earley,
Reading RG6 1HY,
UK

The receipt of all manuscripts will be promptly acknowledged. The Editor's decision will be sent to the first named author when the process of referring is completed. At that time, the first-named author on a paper accepted for publication will be required to produce two hard copies and a computer disc containing the text laid out in a specified format.

SUBSCRIPTION INFORMATION

International Journal of Science Education is published monthly, except in May and October (total of 10 issues), by Taylor & Francis Ltd, One Gunpowder Square, London EC4A 3DE, UK.

Annual subscription 1999

ISSN 0950-0693 $695 £421

A personal subscription is available on application to Taylor & Francis Ltd. Personal subscriptions must be received at a private address, and purchased with a personal cheque or personal credit card.

For more information on our journals and books publishing, visit our website:

http://www.tandf.co.uk/

Periodical postage paid at Jamaica, NY. 11431, USA. US postmasters: send address changes to *International Journal of Science Education*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, USA. Air freight and mailing in the USA by Publications Expediting Inc.

Typeset by Keyword Publishing Services Ltd, and printed in the UK by Henry Ling Ltd, at the Dorset Press, Dorchester, Dorset. The paper used in this publication is 'acid-free' and conforms to the American National Standards Institute requirements in this respect.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia at no extra cost. Subscriptions are entered on an annual basis, i.e. from January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (AMEX, VISA, Mastercard).

Orders originating in the following territories should be sent direct to the local distributors: **India** Universal Subscription Agency Pvt. Ltd, 101–2 Community Centre, Malviya Nagar Extn, Post Bag No. 8, Saket, New Delhi 110017; **Japan** Kinokuniya Co. Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156, USA, **Canada and Mexico** Taylor & Francis Inc., 1900 Frost Road, Suite 101, Bristol, PA 19007, USA; **UK and all other territories** Taylor & Francis Ltd, Rankine Road, Basingstoke RG24 8PR, UK.

All advertisement enquiries to: (World, excluding USA/North America) Di Owen Marketing, 15 Upper Grove Road, Alton, GU34 1NW, UK. Tel/fax. +44 (0)1420 89142; or (USA/North America) Advertising Department, Taylor & Francis Inc., 1900 Frost Road, Suite 101, Bristol, PA 19007-1598, USA. Tel: +1 215 785 5800; fax: +1 215 785 5515.

Vol. 20 No. 1 January 1998

GENERAL ARTICLE

The study of the atmosphere in the science curriculum
Brian Fisher 1

INNOVATION

An innovative introductory course at the University of Amsterdam
Loet Leydesdorff and Rob de Klerk 15

METHODOLOGICAL ISSUES

Do interviews really assess students' knowledge?
Manuela Welzel and Wolff-Michael Roth 25

RESEARCH REPORTS

Mapping development in students' understanding of vision using a cognitive structural model
K. F. Collis, B. L. Jones, T. Sprod, J. M. Watson and S. P. Fraser 45

Multivoicedness and univocality in classroom discourse: an example from theory of matter
Eduardo Fleury Mortimer 67

Models in explanations, Part 1: Horses for courses?
John K. Gilbert, Carolyn Boulter and Margaret Rutherford 83

Integrating experiments into the teaching of energy
Karine Bécu-Robinault and Andrée Tiberghien 99

Native science beliefs among some Ghanaian students
J. Anamuah-Mensah 115

Vol. 20 No. 2 February 1998

METHODOLOGICAL ISSUES

Mission impossible?: Can anything be done about attitudes to science?
Judith M. Ramsden 125

RESEARCH REPORTS

Establishing basic ecological understanding in younger pupils: a pilot evaluation of a strategy based on drama/role play
Simon Bailey and Rebecca Watson 139

Teaching electricity effectively in the primary school: a case study
Mike Summers, Colin Kruger and Jenny Mant 153

Towards critical constructivist teaching
Mike Watts and Zelia Jofili 173

Models in explanations, Part 2: Whose voice? Whose ears?
John K. Gilbert, Carolyn Boulter and Margaret Rutherford 187

Conceptual reorganization and the construction of the chemical reaction concept during secondary education
Heleni Stavridou and Christina Solomonidou 205

A typology of students' interest in physics and the distribution of gender and age within each type
Peter Häussler, Lore Hoffman, Rolf Langeheine, Jürgen Rost and Knud Sievers 223

Science education in Uganda: progress and possibilities
Thomas R. Black, Denis Atwaru-Okello, Julie Kiwanuka, Debra Serwadda, Olive Birabi, Florence Malinga, Albert Biumigishu and Alastair Rodd 239

Vol. 20 No. 3 March 1998

CHEMICAL EDUCATION RESEARCH IN EUROPE

Guest editorial 253

Survey of research related to the development of the concept of 'matter'
D. Krnel, R. Watson and S. A. Glažar 257

Teaching the topic of the particulate nature of matter in prospective teachers' training courses
P. Kokkotas, I. Vlachos and V. Koulaidis 291

Students' understanding of chemical reaction
M. Ahtee and I. Varjola 305

The 'Mole Environment' studyware: applying multidimensional analysis to quantitative chemistry problems
Y. J. Dori and M. Hameiri 317

Dimensional analysis and predictive models in problem solving
G. Tsaparlis 335

Uses and limitations of scientific models: the Periodic Table as an inductive tool
N. Ben-Zvi and S. Genut 351

RESEARCH REPORT

Models of magnetism
A. T. Borges and J. K. Gilbert 361

Vol. 20 No. 4 April–May 1998

RESEARCH REPORTS

Developing secondary students' conceptions of chemical reactions: the introduction of chemical equilibrium
Jan H. Van Driel, Wobbe De Vos, Nico Verloop and Hetty Dekkers 379

Progression in children's understanding of a 'basic' particle theory: a longitudinal study
Philip Johnson 393

An analysis of Taiwanese eighth graders' science achievement, scientific epistemological beliefs and cognitive structure outcomes after learning basic atomic theory
Chin-Chung Tsai 413

Student difficulties in learning quantum mechanics
I. D. Johnston, K. Crawford and P. R. Fletcher 427

First-year physics students' perceptions of the quality of experimental measurements
Saalih Allie, Andy Buffler, Loveness Kaunda, Bob Campbell and Fred Lubben 447

Identification of misconceptions in novice biology teachers and remedial strategies for improving biology learning
Din-yan Yip 461

From nature table to niche: curriculum progression in ecological concepts
Susan Barker and David Slingsby 479

'What's going to happen in the eclipse tonight?': rethinking perspectives on primary school science
Carolyn Boulter, Vaughan Prain and Margaret Armitage 487

BOOK REVIEWS 501

Vol. 20 No. 5 June 1998

RESEARCH REPORTS

The earth and beyond: developing primary teachers' understanding of basic astronomical events
Joan Parker and Dave Heywood 503

Subject knowledge for science teaching at primary level: a comparison of pre-service teachers in England and Singapore
Jane K. Lloyd, Robin G. Smith, Chin Long Fay, Goh Ngoh Khang, Lucille Lee Kam Wah and Chia Lian Sai 521

Puppets and comics in primary science: the development and evaluation of a pilot multimedia package
Marissa Rollnick, Basil Jones, Helene Perold and Mary Ann Bahr 533

Learning in basic electricity: how do motivation, cognitive and classroom climate factors influence achievement in physics?
Christoph von Rhöneck, Karl Grob, Gerhard W. Schnaitmann and Bruno Völker 551

Children's understanding of changes of state involving the gas state, Part 1: Boiling water and the particle theory
Philip Johnson 567

The place of the laboratory in secondary science teaching
James F. Donnelly 585

An alternative conceptual framework from chemistry education
Keith S. Taber 597

Science for employment and higher education
Mike Coles 609

COMMENT

Using out-of-school experience in science lessons: an impossible task?
Fernando Cajas 623

RESPONSE

Response to Dr F. Cajas, Michigan State University
K. Mayoh and S. Knutton 627

Vol. 20 No. 6 July 1998

TAKING PRACTICAL WORK BEYOND THE LABORATORY

Guest editorial
Derek Hodson 629

Fieldwork in the life sciences
Roger Lock 633

Science and/in the community: context and goals in practical work
Jenifer V. Helms 643

Learning science through practical experiences in museums
Janette Griffin 655

'Dry laboratories' in science education; computer-based practical work
Paul Kirschner and Willibrord Huisman 665

Becoming critical about practical work: changing views and changing practice through action research
Derek Hodson and Larry Bencze 683

RESEARCH REPORTS

Children's understanding of changes of state involving the gas state, Part 2: Evaporation and condensation below boiling point
Philip Johnson 695

The effect of context, culture and learning on the selection of alternative options in similar situations by South African pupils
L. G. Enderstein and P. E. Spargo 711

The effect of learning environment factors on students' motivation and learning
Mary Hanrahan 737

Vol. 20 No. 7 August 1998

RESEARCH REPORTS

Cognitive acceleration through science education: alternative perspectives
Marion Jones and Richard Gott 755

Assessing the cognitive demands required of students in class discourse, homework assignments and tests
Anat Zohar, Noa Schwartzer and Pinchas Tamir 769

Gender neutral engineering: an impossible dream? – the case of Eastern Europe
A. Durndell, F. Uzunova, D. Asenova, A. Asenov and K. Thomson 783

Boy talk/girl talk: is it the same at animal exhibits?
Sue Dale Tunnicliffe 795

Assessing students' understanding about levers: better test instruments are not enough
Michelle K. McGinn and Wolff-Michael Roth 813

Assessing pre-university students through extended individual investigations: teachers' and examiners' views
Fred Lubben and Judith Bennett Ramsden 833

Students' reasoning about electricity: combining performance assessments with argumentation analysis
Gregory J. Kelly, Stephen Druker and Catherine Chen 849

On becoming a secondary science teacher in England: a pilot study
E. W. Jenkins 873

Vol. 20 No. 8 September–October 1998

DISTINGUISHED PAPER SERIES

Communication of scientific knowledge in class – from verbalization to the concept of chemical equilibrium
Nathalie Évrard, Anne-Marie Huynen and Cécile de Bueger-Vander Borght 883

RESEARCH REPORTS

The nature of students' informal science conceptions
Russell Tytler 901

Children's conceptions of air pressure: exploring the nature of conceptual change
Russell Tytler 929

From playing to investigating: research in an Interactive Science Centre for primary pupils
Helen Brooke and Joan Solcmon 959

An investigation into understanding of geological time among 10- and 11-year-old children
Roger Trend 973

A study of Korean middle school students' interests in biology and their implications for biology education
Jung-Lim Hong, Kew-Cheol Shim and Nam-Kee Chang 989

The sharing-out of nuclear attraction: or 'I can't think about physics in chemistry'
Keith S. Taber 1001

Vol. 20 No. 9 November 1998

LEARNING PROCESS STUDIES IN PHYSICS ON INTEGRATION OF PERSPECTIVES

Editorial. Learning process studies: examples from physics
Wolff-Michael Roth 1019

Beyond romantic versus sceptic: a microanalysis of conceptual change in kinematics
Jeremy Roschelle 1025

Thought experiments and collaborative learning in physics
Miriam Reiner 1043

Conceptual change cum discourse analysis to understand cognition in a unit on chaotic systems: towards an integrative perspective on learning in science
Reinders Duit, Wolff-Michael Roth, Michael Komorek and Jens Wilbers 1059

A learning pathway in high-school level quantum atomic physics
Juergen Petri and Hans Niedderer 1075

Starting small and with uncertainty: toward a neurocomputational account of knowing and learning in school science laboratories
Wolff-Michael Roth 1089

The emergence of complex cognition during a unit on static electricity
Manuela Welzel 1107

RESEARCH REPORTS

Integrating mathematics, science, and technology: effects on students
John A. Ross and Anne Hogaboam-Gray 1119

Primary children's conceptions of science and the scientist: is the impact of a National Curriculum breaking down the stereotype?
Lynn D. Newton and Douglas P. Newton 1137

Vol. 20 No. 10 December 1998

INTRODUCTION

Editorial. Special Issue: Conceptual development in science education
Ruth Stavy 1151

RESEARCH REPORTS

What changes in conceptual change?
Andrea A. diSessa and Bruce L. Sherin 1155

Concepts and figures in geometrical reasoning
Efraim Fischbein and Talli Nachlieli 1193

From conceptual development to science education: a psychological point of view
Stella Vosniadou and Christos Ioannides 1213

The nature of naive explanations of natural selection
Michel Ferrari and Michelene T. H. Chi 1231

Cognitive conflict and intuitive rules
Dina Tirosh, Ruth Stavy and Shmuel Cohen 1257

Expert novice similarities and instruction using analogies
John J. Clement 1271
